### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below.

Authorization for this examiner's amendment and rejoinder of claims 7 and 8 and cancellation of claims 3, 6 and 9 was given in a telephone interview with Mr. I. Zborovsky on 11/06/2009.

The application has been amended as follows:

Claim 7, line 1, after "claim" delete "6" and insert – 1--.

Claim 8, line 1, after "claim" delete "6" and insert – 1--.

Claims 7 and 8 have been rejoined and are allowable. The restriction requirement as set forth in the Office action mailed on 03/18/2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 7 and 8, directed to the operating means of claim 1 no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

Previously withdrawn claims 3, 6 and 9 directed to the pulling device are canceled because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: Although the references of record show some similar features of applicant's claimed device, they fail to show or teach the claimed invention, wherein the blind is within chamber enclosed by panes and comprises a first pulling means connected by a kinematic mechanism comprising three engaged pinions and a second pulling means on an end of the blind having a cord fixed to the center of the blind and fixed to a roller, wherein a first pin is axially engaged with the roller and orthogonally engaged with a pinion and worm screw of a first magnetic disc, having a threaded bushing fixed to an end of the roller that translates the roller axially to accommodate the cord, and a second magnetic disc rotated externally of the panes and the position of the first magnetic disc. While Saint Gobain and Petro teach a blind inside of panes and a first pulling means, there is no teaching of a second pulling means on the second end of the blind having a cord fixed to the center or the engagement of the pinion, roller, or magnetic discs. The examiner believes there is no proper motivation to combine the references of record to produce applicant's claimed device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3634

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JEREMY C. RAMSEY whose telephone number is (571)270-3133. The examiner can normally be reached on Monday-Friday 6:30 am-4:00 pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Katherine Mitchell can be reached on 571-272-7069. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
